Idaho Home Service Affordability Index

Cost in USA | Open Skill LLC | Published guides updated through 2026-11-12
https://costinusa.com/affordability-index/id/

Cost midpoint = (low + high) / 2. Income share = one service purchase / median annual household income × 100. Rent share = one purchase / median monthly gross rent × 100. Services and project scopes are compared separately. These are planning estimates.
Cities form a publication sample, equally weighted. Census ACS survey periods differ and margins of error can affect close rankings. Missing or annotated denominators are excluded. Project budgets may include materials.
